## Buying from Merchants? Beware, you may end up like this..!

### What you order..

### What you get!

The product may look similar. Look closer and you may find a huge difference!

- ▶ Merchants give you what they get from the market...but we weave exactly what you order.
- ▶ We can demonstrate how you can check the difference yourself.
- ▶ Beware of the traders who claim to be manufacturers! They may just be traders!

## Why should you buy from a Manufacturer?

- ▶ Only a manufacturer can offer consistent quality round the year unlike export surplus/ stock lots sellers.
- ▶ Low priced items are less durable and will increase your overheads drastically on a longer run.
- ▶ Companies claiming to be manufacturers, may not really be. Visit our manufacturing facility and have the first-hand experience of our quality and commitment.

Consistent Quality... Competitive Price!

## We don't just trade... We MANUFACTURE!

## All that glitters is not gold!

- ▶ It is the same with linen. Initially it may look perfect but, a closer analysis will reveal the compromise made in quality for the sake of cheap price.
- ▶ Linen quality & durability cannot be concluded just by its look & feel, comparison of specifications on paper or by evaluating after a couple of washes.
- ▶ The scientific way to check linen's quality is to get it lab tested from any NABL accredited laboratories.

## Present us the linen that you buy. We will demonstrate how we can offer...

- ▶ Even subtle difference in quality, not visible to naked eye, will result in lesser durability of your linen thereby increasing your operational costs.
- ▶ Raenco assures better quality than the best in the market at an economical price.

Try us once and reap the benefits again and again.

**BETTER PRICE**  
for same quality

or

**BETTER QUALITY**  
for same price!

## Perfect balance between Quality & Price

- ▶ With two decades of expertise, we can offer perfect balance between the quality and price.
- ▶ With our rich experience in linen manufacturing since 1996, we take pride in confidently stating that it is hard to beat our price for our specifications.
- ▶ Our prices are worked out by experts with utmost precision and wafer thin margin to offer you the best value.

It takes belief in truth and a lot of conviction to challenge!

**YES!**  
**We Challenge!**

Hardly can any linen supplier match  
our price for the same quality we offer!

Still not convinced? Please do visit our manufacturing  
facility and experience of our quality.

## Short term savings may result in long term loss.

- ▶ Though low priced linen seem to save cost initially, the luster and novelty fades away in few washes.
- ▶ The poor durability of linen increases the frequency of re-ordering instances, thereby increasing your overheads considerably on a longer run.

## Don't listen to our advice... if you don't mind losing!

- ▶ Being contented with your existing vendors may deny you the privilege of enjoying a far better Raenco products at an unbelievably reasonable price.
- ▶ It is Raenco's commitment to deliver "Better than the Best" at no additional cost.
