

UVC ROOM DISINFECTOR

M-E200

No more handling of hazardous chemicals is required to clean surfaces when the UVC Room Disinfector is deployed. In today's continuously changing environments it has become even more important than ever to effectively protect from the various infectious microbes. It is the latest constant wave UV-C surface and air disinfection technology designed specifically for all areas of the hospital and healthcare environment. It incorporates unique patented design features that reduce shadowing. Log 6 reduction (99.9999%) bacterial kill achieved in minutes.

MODEL	M-E200
Operating Voltage	230 VAC
Power	200 W
Lamp life	20000 Hrs

UV RADIATION IS HAZARDOUS Protect eyes and skin from exposure to UV light. Use only with shielding in place
